## R&M 19" 2U Global Patch Panel

## 19" 2U Global Patch Panel

R&M's 2U Global System is highly recommended for data center and enterprise applications. The 19" 2U Global patch panel accommodates up to sixteen 3 x 1 port connection module holders or blind elements. Patch panels with up to 48 RJ45 ports can be configured. The ingenious forced-locking and unlocking system ensures an absolutely secure hold of all of the elements in the 2U patch panel.

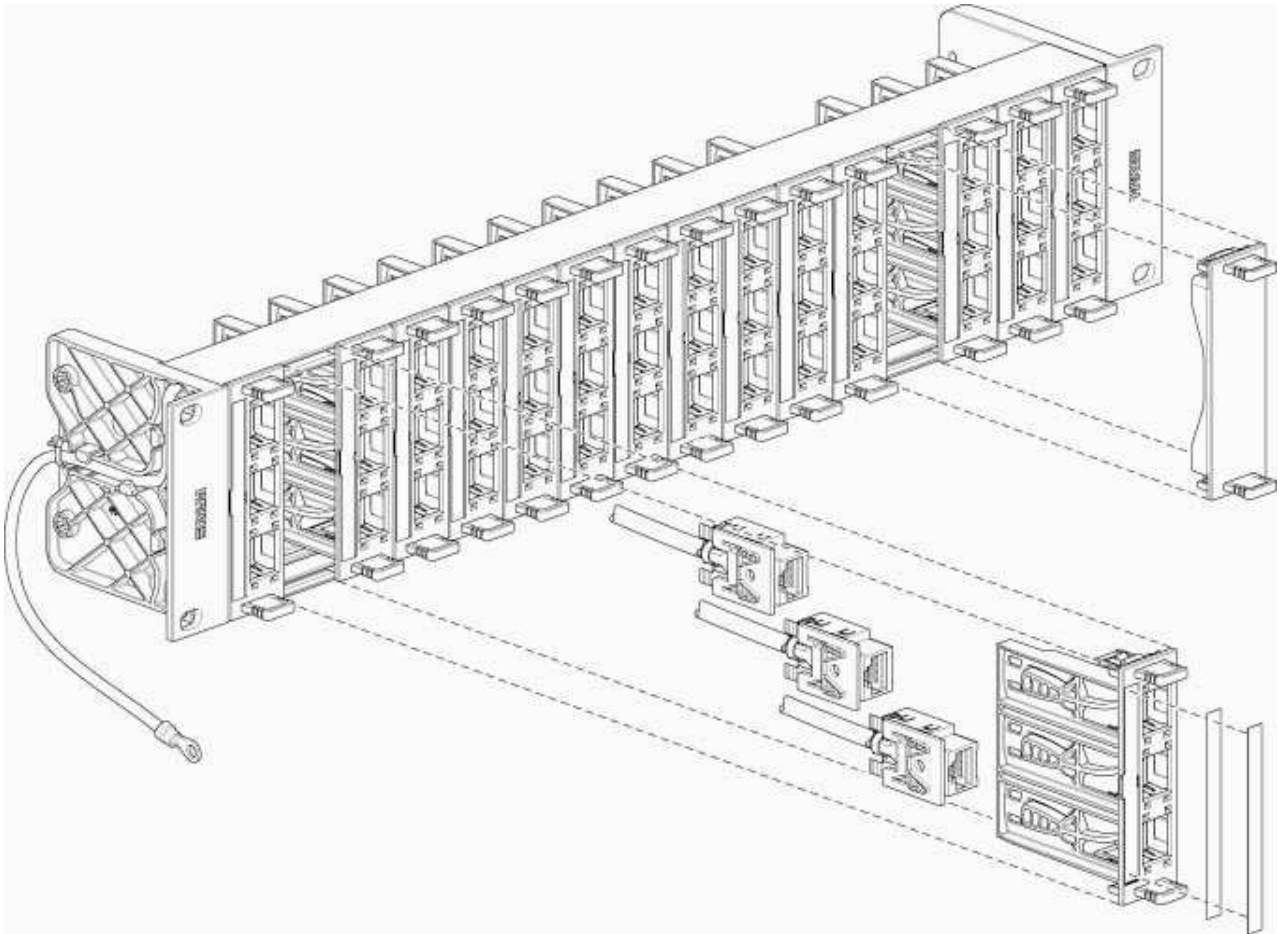

### Features

- Modular design of the patch panel with up to 48 shielded or unshielded RJ45 ports
- Easy to install and service thanks to optimum fastening system
- Complete earthing system integrated on the shielded patch panel
- Ready for the R&M Security System
- Exchangeable labeling strips
- Strain relief integrated on connection module holder

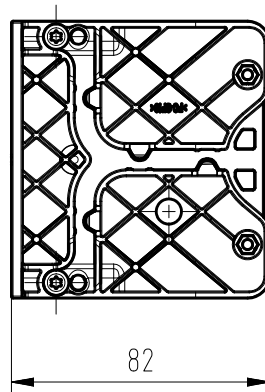

### Technical Data

- Overall dimensions: 19", 2U
- Patch panel profiles: aluminum, neutrally anodized
- Patch panel sidewalls: polycarbonate, fiber-glass reinforced
- Sidewall color: median gray/NCS 2502-B
- Connection module holder: polycarbonate, fiber-glass reinforced
- Connection module holder color: light gray/NCS 1005-R80B
- Slider: polycarbonate
- Slider color: median gray/NCS 2502-B
- Halogenated: no (in accordance with DIN/VDE 0472/815)
- Fire classification sidewall: UL94V-0
- Fire classification connection module holder: UL94V-0
